REPORT OF THE EVENT

Dr. Nicola Grande is one of the researcher from Rome for nickel titanium rotary instruments. He has published various articles regarding study of anatomy and preparation of endodontic anatomy by micro computed tomography

Access opening-smart approaches is an essential part of the dental curriculum. It is important for conservative endodontics, as proper access opening is mandatory requirement to achieve straight line access at the same time conserving the healthy tooth structure. The CDE program conducted by Dr. Nicola Grande has enlightened all participants with knowledge about Access opening-smart approaches.

39 Interns , 18 pgs and 15 staff acquired the knowledge regarding different file system and access opening techniques highly beneficial in clinical practice.

REPORT OF THE EVENT

Dr. Phillip Schneider is one of the eminent trainer and has over 40 years of clinical experience. He is known for his worldwide lecturing activities and has conducted several sessions and had enlightened several students with their knowledge. He is a consultant for Ivoclar Vivadent AG headquartered in Schaan/Liechtenstein.

He has conducted a Live Demonstration on Preparation of Class II Cavities followed by restoration with CENTION N, that was attended by the 15 staff members 40 Interns & 17 PG Students of the Department of Conservative Dentistry & Endodontics

Cention N offers tooth-coloured esthetics together with high flexural strength. Patented alkaline filler increases the release of hydroxide ions to regulate the pH value during acid attacks. As a result, demineralization can be prevented. Moreover, the release of large numbers of fluoride and calcium ions forms a sound basis for the remineralization of dental enamel.

The ICDE program conducted by Phillip Schneider has enlightened all participants with knowledge about application of this material
