CIRCULAR

Attached herewith is Document for “**Proposed OSCE policy**”. Being a health science institute it’s always difficult to evaluate student’s clinical / practical skill based on their theoretical knowledge. We have started implementing following policy for the evaluation of the student in clinical/preclinical departments for their internal evaluation. This policy will help individual department to develop their own departmental OSCE policy. Mentors of the students identify their skill during term end by inspecting the following qualities/competencies in them and grade/Mark them in their logbook.
