**REPORT OF EVENT**

**“A New Approach For Diode Laser Into The World Of Laser Dentistry”**

Laser technology for diagnostic and therapeutic purposes has become essential components of contemporary dental practice. Laser can be used for conservative soft tissue surgery, laser etching, cavity preparation, frenectomies, exposure of unerupted teeth, periodontal surgeries, biopsies in dental practice. Minimum bleeding, faster healing and painless operative procedures of laser has gained attention in recent years.

Dr. Apoorva Gupta had highlighted importance of laser in a CDE programme named- **A New Approach For Diode Laser Into The World Of Laser Dentistry** arranged in Government Dental College and Hospital on 29/8/2022 which was attended by 91 participants.
