POLICY FOR BAN ON USE OF PLASTIC IN THE INSTITUTION

Plastic pollution is currently one of the biggest environmental concerns. The short term benefits & convenience of plastic and plastic goods have led to a boom in the production & consumption of plastic. Plastic waste has emerged as one of the biggest environmental concerns adversely impacting the soil, water, health and well beings of citizens at large. The limited waste disposal systems have become a challenge to dispose of plastic materials especially the single use plastic.

To reduce usage of plastic, the University Grants Commission has issued special guidelines to all the higher educational institutions to impose ban on single use plastics on the campus.

Accordingly, it is hereby circulated for information of all concerned that competent authority of Government Dental College and hospital, Ahmedabad has approved the under mentioned policy to put a ban on single use plastic materials on the campus :

1. To ban use of single use plastics in campus premises, hostels, canteens etc.
2. To strive to make the campus plastic free by systematically banning use of plastics & replacing the same with suitable environmental friendly substitutes.
3. To avoid use of plastic water bottles, bags and encourage use of alternative solutions like cloth bags, paper bags etc
4. To mandate all the students/ staff members to avoid bringing non bio degradable plastic items on the campus
5. To display signboards at various places in college and hospital areas to give wide publicity to ban use of plastic on the campus
